

Launching webinar of the EVA platform

It is with pleasure that the EVA partnership is able to invite you to the first launch of the EVA online platform. The webinar is aimed at trainers or stakeholders, who work with training, counselling or supporting migrants and refugees in relation to labour market and entrepreneurship.

EVA – a European Entrepreneurship VET Model and Assessment Framework for Ethnic Minorities – is an online tool, where the user is guided through 3 parts:

- A screening of their propensity and mind-set towards entrepreneurship
- A collection of training materials and information on entrepreneurship
- A 3D simulator environment where they are confronted with typical entrepreneur scenarios

This is then linked to a final test, where the user will be examined on their knowledge and competencies, with the possibility of obtaining a digital badge as a means of recognition.

The webinar will take place on **Wednesday April 11th 2018 at 10.00-11.00 am CET**

During the webinar you will be given:

- An insight into the EVA project and the idea behind the platform
- An introduction to the EVA platform and how to navigate it
- An overview of the elements of the platform
- A guide on how to use the platform with migrants/refugees
- Knowledge on the badge system and how it works as acknowledgement of competencies

The webinar runs for 1 hour and will be held in English. Participants will come from the 5 EVA partner countries: Denmark, Germany, Italy, Cyprus and Malta.

You can take part in the webinar from any location using a pc, headset and a good internet connection. Once you sign up for the webinar, you will get an email a day before the webinar with a link to the online meeting room.

Participation is completely free, and you are welcome to share the invitation with colleagues or others in your network.

To sign up for the webinar, simply register by filling out the form via this link by Thursday April 5th
