A European Entrepreneurship
VET Model and Competence
Framework for Migrants

Why are we here today?

- The challenge: supporting migrant entrepreneurs
- All EU countries face a challenge of work place integration – entrepreneurship can be a way of supporting yourself
- Need for targeted job-preparation and orientation assistance for migrants
- Barriers: access to finance and support, language, limited business, management/marketing skills, over-concentration in some business areas.

A European Entrepreneurship
VET Model and Competence
Framework for Ethnic Minorities

The proposed solution:

- A more qualified selection of who becomes an entrepreneur
- Strengthening the skills needed
- Reduce risk of failing with the business endeavour

A European Entrepreneurship
VET Model and Competency
Framework for Ethnic Minorities

- By introducing a training model that:
 - Measures the competencies and mindset
 - Provides possibilities for developing competencies
 - Trains and tests the skills in a controlled environment
 - Gives recognition of competencies
